Christy/Diane

We will keep you informed. It will likely be later in the day.

Thanks

Gary,

If you were asking what is the latest you could deliver samples on Friday – someone will be here until 3:45 to accept. Just let me know if this is your plan.

Thanks.

To check for % solids? It would probably take all day. We just have one filtration device that has to be thoroughly washed in between each sample. Since they are hazardous with benzene, we have to do everything in the hood.

Just collect two 32oz jars and that will work no matter what the % solids.

What is the latest tomorrow I can bring the samples for checking?

Thanks

Do you know if there is any solid material in the liquid (FT506 had ~30% solids; FT1004 had practically none). If you don't know, to be safe collect two 32oz jars again.

Do you need these by Dec 2nd? I would need to confirm we have ESAT contractors in the office next week to help with prep. There's three of them so it's likely we do. Please advise.

How much volume do you need?

Gary,

I believe we can accommodate your request to analyze these here. It makes a huge difference in capacity when we can charge to Superfund and utilize our ESAT contractors in preparation of samples.

Do you need these sample results by Dec 2nd also? I'm not sure I can promise we would meet that date with fully reviewed data but we can try. We would need the samples collected and delivered ASAP (i.e. today).

Diane/Christy:

As I told you earlier, we have some additional containers where we are experiencing the same interferences. I want you to see these to see if your can take these samples or can specify as protocol for a commercial lab where they can resolve these issues for us. See the following:

Container	Classification	Volume Estimate (gallons)	RCRA Codes	RCRA Codes Due to Matrix Interference	RCRA Codes Eliminated Based By Totals Data
NTank8	Hazardous	14800	D018	D032	
STank2	Hazardous	16150	D018	D032	
STank8	Hazardous	14205		D030, D032	
NTank9_10 Comp	Hazardous	18039	D018	D032	
OT4_OT5 Comp	Hazardous	17335		D032	
STank1_3_6 Comp	Hazardous	11501	D002, D007, D018	D020, D030, D032, D033	

Thanks
